
Mission: To promote
Garden Club's presence
in the community and
Grow in membership

PLANT A GARDEN - BELIEVE IN TOMORROW

President's Project Oklahoma 2019

*(effective June 1, 2019, year ends March 1, 2020.
To be awarded at OGC Spring Convention 2020)*

Your Club can choose to do **one or more** of the following projects.

- ✿ Beautification/Garden Project: **Plant and care for** a community garden.
 - Community can mean more than just your "town or city." Think of a school, nursing home, non-profit organization, library, etc., that could use your Club's expertise.
 - Garden can be an ornamental and/or vegetable garden. It can include a garden bed or **MULTIPLE** containers (10 or more, large-size) in a public space.

- ✿ Add six (6) new members **AND** host a plant sale. Your plant sale can be held for the public or, if that is not feasible due to lack of space, must have at least ten (10) guests at the sale (other than members).

- ✿ Hold a Standard or Small Standard Flower Show **AND** a plant sale (does not have to be on the same date). **BUT, If you are applying for the above project in addition to this project, this must be a separate plant sale.** The same guidelines for the plant sale apply.

Each project will qualify your Club to receive \$100 award for completion (for a total of \$300 in one year, \$100 for each project). An application (see the OK Garden Clubs' website or contact the chairman) **and at least 4** photos are necessary for evidence (details in the application).

This evidence must be submitted to President's Projects Chairman before March 1, 2020 in print by mail, or electronically:
